

Chem Club City Tours Attract 95

Full Day of Sight-Seeing Is
Planned; Bus. Ad. Club
Joins in Body; Must Sign
Before April 16.

DINNER IN EVENING

Signing up as a body for the Chemistry club's industrial tour, the Business Administration club added twenty-five more to the total of seventy that have signed bulletin board lists.

The tour, which is to be held Friday, April 20, is divided into three sections—general, chemical, and engineering. The student has his choice of these excursions. Transportation, lunch, and similar expenses are to be handled by the individual.

The Chemistry club may arrange to have the new Union Pacific train in Omaha on April 20, when they hold their industrial tour of the city, according to Gustave Hershman.

Starting at 8:30 in the morning, the Chemistry club has planned a full day of sightseeing, to be climaxed by a 60-cent dinner at the Y. M. C. A. in the evening. Schedules of tours will appear on university bulletin boards soon, according to Gustave Hershman, publicity director.

Students are asked to sign for the tour before April 16, and to see Dick Schaeffers in regard to the dinner.

No Objections To Uni PWA Plans

Sealock Encouraged; Expediter Investigates; Martin Is Encouraged by Progress.

Municipal university's \$900,000 PWA building project is progressing as well as can be expected and thus far has met with no serious objection, legal or otherwise, President W. E. Sealock said Wednesday.

Heath Twichell, public works expediter for the PWA, was on the campus Saturday afternoon to ascertain the University's need for new buildings, Dr. Sealock stated.

Washington officials and the PWA are favorable to the Municipal university building project, Paul L. Martin, University regent, said Sunday following his return from Washington, where he talked with PWA officials.

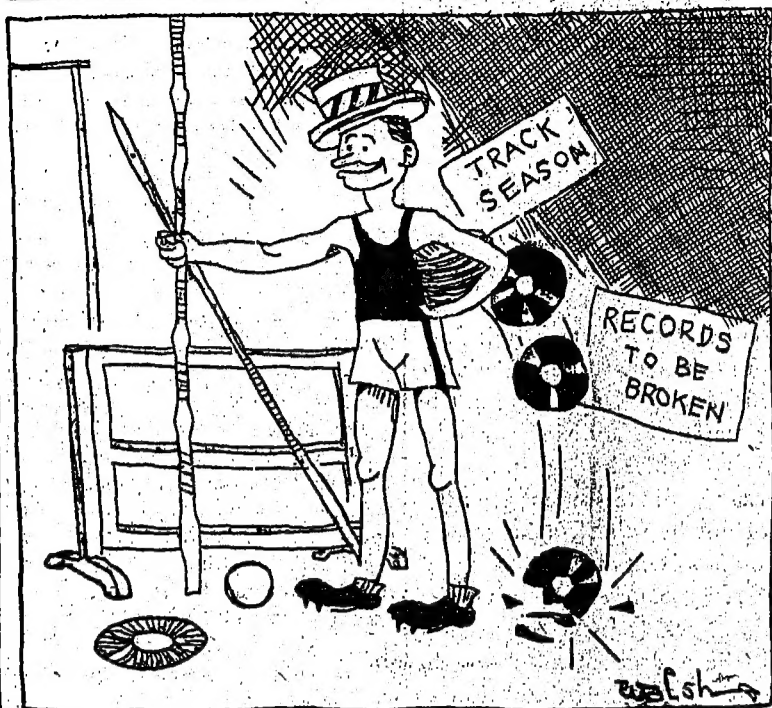

"There is nothing new and concrete in the matter," Martin said, "but I am encouraged that we are progressing towards success."

German Club May Have Spring Party on May 3

A spring party was discussed by the German club at its meeting Monday noon at Science hall. The tentative date was set as May 3. The party will be held at the Musik Verein.

Here Again

Political World Needs Men From Colleges, Says Alley

The American college graduate the International Relations club is forgetting liberty and self government, Dr. Alden G. Alley, professor of history at Dana college, Newark, New Jersey, said in an address on "Fascism and Americanism" at assembly Friday. He stressed the need for college graduates in public affairs. The International Relations club sponsored the talk.

"Lured by the profits to be made in business, only a few graduates choose to serve the state," Alley declared. "We must recruit more political leaders and government employees from the ranks of college graduates who have specialized in history, economics, and political science."

Free Speech Necessary Democracy presupposes an intelligent electorate, Alley said. Free speech and a free press must be available to spread the truth concerning public affairs in order that the people may judge wisely and vote accordingly.

"The outstanding characteristic of fascism is that it gets things done," Alley declared. "It is efficient in practical affairs and its idealism appeals to the young. It has also done considerable good in curbing vice in cities, both in Germany and Italy."

Fascism Brutal, Inhuman The merits of fascism are more than outweighed by its defects, Alley believes. It is brutal, inhuman, and stunts moral and intellectual growth of the people. Regarding the masses as not fit to rule, fascism maintains itself in power by force. The beliefs and desires of a small group are forcibly inflicted upon the masses.

"Government by free men is necessary to advance civilization," Alley maintained. "There is no hope for people who surrender their moral and intellectual natures to a few men as the Italians and Germans have done."

Advocates U. S. Joining League of Nations

"War will not break out in Europe for at least five years," Alley said in an address before

Thursday, March 22, "although the situation is more tense today than at any time since 1914. If normal economic conditions were to return, war talk would fall off."

American entry into the World Court and League of Nations was advocated by Alley before Dr. Edgar A. Holt's American history class Friday morning. The only intelligent way to solve international disputes is at the conference table, such as the League of Nations, Alley said.

Mid-Semester Exam Schedule

Thursday, April 5

8 O'clock—Classes meeting T-Th. or all days at 8.
10 O'clock—Classes meeting T-Th. or all days at 10.
1 O'clock—Classes meeting T-Th. or all days at 1.
3 O'clock—Classes meeting T-Th. or all days at 3.

Friday, April 6

8 O'clock—All 8 o'clock classes which do not meet T-Th. at 8.
10 O'clock—All 10 o'clock classes which do not meet T-Th. at 10.
1 O'clock—All 1 o'clock classes which do not meet T-Th. at 1.
3 O'clock—All 3 o'clock classes which do not meet T-Th. at 3.

Monday, April 9

9 O'clock—All 9 o'clock classes which do not meet T-Th. at 9.
11 O'clock—All 11 o'clock classes which do not meet T-Th. at 11.
2 O'clock—All 2 o'clock classes which do not meet T-Th. at 2.
4 O'clock—All 4 o'clock classes which do not meet T-Th. at 4.

Tuesday, April 10

9 O'clock—All classes meeting T-Th. or all days at 9.
11 O'clock—All classes meeting T-Th. or all days at 11.
2 O'clock—All classes meeting T-Th. or all days at 2.
4 O'clock—All classes meeting T-Th. or all days at 4.

Woerner Asks That Gala Committee Control Funds

Declares Gala Night Show Will Be Successful if There Is No Intervention; Student Council Should Have No Part in Handling of Finances or Sharing of Profits.

TWO ENTER SHOW WRITING CONTEST

That the Gala committee should have complete charge of the finances instead of the student council was the opinion of Troy Woerner, Gala Day chairman, in an interview yesterday.

"I want the committee to pass on all expenditures and reap the profits—should there be any," said Woerner. "At the last meeting of the student council, I got the impression that the council wanted to share some of the returns."

Loss Last Year

"Last year the books were all written in red, so there were no profits to divide. I can see no reason, however, why a Gala Night show should not be successful, as long as there is not too much intervention."

"In previous years the final approval of all expenditures was in the hands of the student council."

A committee composed of Dick O'Brien and Robert Saxton, appointed by the council, met with Woerner Friday to discuss finances of the show. They have not yet reported to the council.

Two Enter Contest

Woerner announced that the deadline on acts by departments and organizations has been extended to Friday, April 6. Last week a contest for writing a show for Gala Night was announced by the central committee. Ralph Kahn '35 and Adolph Schwartz entered the contest and will submit continuities today. Woerner believes there are several others who are planning to enter original shows in the contest.

In case one of the shows are accepted, the winner will be awarded a five dollar cash prize. The news will be posted on the main bulletin board in Joslyn Hall.

Radium Specialist In Illustrated Talk

Dr. Quigley Predicts Great Opportunities for Medical Students in Field of Radium.

"There are great opportunities for medical students in the field of radium," said Dr. P. T. Quigley, radium specialist, in an illustrated address before the Pre-Medical club Tuesday evening in the auditorium. "The science of radioactivity was established about 1886, thus making the field a new one."

In addition to his Tuesday evening address, Dr. Quigley spoke before the club Friday at ten o'clock at the science hall. About fifty attended both lectures. His subject was "Physical and Chemical Aspects of Radium."

(Continued on Page 4)

Women Athletes Initiated Formally Tuesday Evening

Formal initiation of new members was the feature of W. A. A. meeting in the Women's Faculty building Tuesday evening. Miss Ruth Diamond, physical education director, gave a brief talk. Pearl Daneky presided.

Uni Debaters Win Once, Lose Twice

Omaha Women Defeat Team From Puget Sound, Lose to Hastings' Group.

The university debate teams, coached by Dr. Benjamin Boyce, won one debate and lost two in their encounters with other college teams Wednesday. The women's team, consisting of Josephine Carroll and Bernice Perimeter, won over the women's team from the College of Puget Sound, Wednesday evening.

The university men's team, consisting of Harry Griffin and Hyman Finkelstein, was defeated by the men's team from the College of Puget Sound.

Wednesday afternoon the women's team was defeated by the women's team from Hastings college.

Mr. J. F. Showalter of Technical High school and Dr. Edgar A. Holt were judges at the evening debate. Miss Mary E. Hamilton of North High school was judge at the afternoon debate.

The question at all three debates was: "Resolved, that President Roosevelt's powers should be increased as a permanent policy." The Omaha women's team upheld the affirmative in both their debates. The Omaha men's team upheld the negative side of the question in their debate.

Motion Picture Explains Theory

Chemistry Club Sponsors Four Shows Illustrating Einstein's Theory of Relativity.

Einstein's theory of relativity was perfectly clear to two hundred students and faculty Wednesday after seeing it illustrated in a motion picture show sponsored by the Chemistry club.

The picture was shown four times, three times during the day at the science hall, and once in the evening at the Joslyn hall auditorium.

Lyman Cook and Sol Sussman were in charge of the picture.

DECLAMATORY VIE APRIL 12

The German declamatory contest, to be held April 12, will be concerned entirely with Goethe. A talk on Goethe will precede the declamatory part of the program.

DISTINCTIVE SERVICE

THE International Relations club, since its organization two months ago, has rendered the student body a distinct service. Three speakers, all authorities on international affairs, have appeared at the University, due to the efforts of this organization.

Students who have taken advantage of these lectures must surely have profitted by getting a keener grasp of world affairs. It is only through unprejudiced study of international problems that methods can be found for their solution.

The International Relations club is doing its bit to make the student body at Municipal University more "internationally minded."

The club hopes, we are informed, to build up a library of books on international problems. We wish the club success in this endeavor and hope that they continue to bring to the University speakers like Libby nad Allen, whose remarks have proven so stimulating and thrown so much light on the problems of the world today.

TEST FOR FACULTY

SOME of the faculty at Union College were startled when the student newspaper recently published an examination for faculty members. Although the questions are not particularly shocking, they are interesting and thought-provoking. We offer them for the consideration of our faculty.

"Do you find your greatest interest in your students and in intellectual pursuits?"

"Do you seek to enlighten your students, rather than to make them recite fundamentals?"

"Do you try to introduce them to life and thought, not to coach them to pass examinations?"

"Do you put yourself forward as a dispenser of truth, not as an ingratiating vaudeville actor?"

"Do you give the student all you have of scholarship, wis-

dom and understanding, despite their supposed immunity to such?"

"Do you stimulate the mind of the student to suggest ideas and to correlate the loose ends of information?"

"Are you enthusiastic, alive, free from all dull pedantry and dogma?"

"Are you striving to be a personal friend of the student, a guide, and an inspiration?"

An imposing list, is it not? Surely only a super-man—or a super-liar—could answer them all in the affirmative. Nevertheless, some of the Municipal university's faculty fill a respectable number of the requirements set up by the Union paper. Others of the faculty might raise their scores if they tried a little harder.

If anybody wants to start a league to make faculty members stay in their offices during their scheduled hours, we're willing to join.

GRADES

STUDENTS go to college for an education, a recent paragraph in the Creightonian suggests. It's their parents who make them work for grades.

No doubt there is a lot of truth in that statement. Father and mother, of course, got good grades when they went to school, so if Johnny doesn't do likewise they immediately conclude that they are wasting money in sending him to college.

It never enters their heads that Johnny may be so busy getting an education that he hasn't time to bother with grades. Somehow they fail to realize that "education" and "grades," far from being synonyms, are often antonyms.

"Tout comprendre, c'est tout pardonner."

—Mme. de Stael

THE LAST STEP

During the six months that the plan for new buildings has taken to advance to its present stage, there have been many favorable reports published in Omaha papers. Every public leader and organization appeared to be behind the project. Congressman E. R. Burke, who is working for it constantly, reports that the attitude of Washington officials is satisfactory.

Notwithstanding the steady flow of favorable rumor, nobody can be securely confident that the plan will go through.

How much these buildings would benefit the Municipal University of Omaha cannot be estimated. Facilities for education will be greatly increased. Since student fee rates will not be raised, a larger enrollment is assured.

Such a Municipal University as will result from the change will be a decided asset to the city of Omaha. In addition to remote benefits, the project will be of immediate value to the city, since it will provide employment for 150 men. Skilled labor of many varieties will be required.

"The study of art develops our emotional life."

They Say at College...

Smoking of the marijuana weed on the campus at the University of Kansas has brought an official investigation.

Several students were questioned recently by officials of the university, but no names were made public.

The absence of any course in humor in the curricula of American colleges was characterized as one of the great tragedies in education by Dr. William McAndrew, speaking recently in New York.

Literary organizations predominate in academic attainment at Lafayette College, according to statistics announced by the registrar relating to scholastic ratings of the various extra-curricular organizations.

Dr. Holmes Dysinger, professor of Philosophy at Midland college in Fremont, Nebraska, has been teaching for more than 68 years. He is 81 years old.

Annual fire schools, to aid in training village firemen, are conducted at West Virginia university.

Legislation obtained by the Roosevelt administration is being used as the subject-matter in two of the economic courses at Bucknell University this semester. One course is devoted to probable effects of the New Deal legislation toward ultimate control of trusts. Another course deals almost entirely with the NRA.

A modern version of outdated gymnastics called "A century of Progress in Physical Education" was presented recently by 200 Mount Holyoke College undergraduates.

Massachusetts Institute of Technology scientists have developed a formula by which they claim it is possible to predict how tall children will be.

A DePauw student says in a sociology report: "Activities at DePauw university are creating more complexes and destroying more personalities than they develop."

Journalism students at the University of Iowa hold an annual ball and call it the "Plea Ball."

North Instructor At Chem Meeting

J. H. Dorsey, chemistry instructor at North High school, will discuss methods of working out chemistry problems at a meeting of the Chem club in Science Hall at ten o'clock this morning.

Mr. Dorsey is the father of Joan Dorsey, '36.

SCOUT FRAT MEETS

Alpha Phi Omega, national scout fraternity, met Monday evening at the Paxton hotel with sixteen members present. Final plans for installation in the national group early in May was discussed. Mr. W. O. Swanson, sponsor and founder of the fraternity, spoke to the members.

Marion Earhart was elected historian.

'CHILDREN OF DIVORCE'

The prize-winning research project, "Children of Divorce," the material of which was collected by DeLene Brownlee with the assistance of Dr. Sullenger, is now ready for distribution. This material is issued by the Bureau of Social Research and published by the local chapter of Alpha Kappa Delta, national honorary sociological fraternity.

Hazel Hildebrand, former university student, has been re-elected to her position as teacher in the Beebeetown consolidated school in Iowa. Miss Hildebrand has been teaching the first and second grades and supervising art in the Beebeetown school for the past year.

Edward Clark, who is now attending Chicago university, is visiting in Omaha during spring vacation.

SOCIOLOGISTS INITIATE TWO

Alpha Kappa Delta, national honorary sociological fraternity, will initiate two new members Friday, April 6. They are Edythe Hall and Howard Fischer.

Members of the Women's Athletic association hiked to Carter Lake Wednesday evening, March 28th.

A group of W. A. A. members hiked to Carter Lake Wednesday. They left the university about 5:30 p. m.

A group of girls from the Orchestral class drove to Lincoln Wednesday to hear a talk by Ted Shawn.

ON THE RADIO

Rosa Ponselle, world-famous soprano; Nino Martini, noted radio tenor; and Grete Stueckgold, popular concert singer, will sing the best-loved American songs of yesterday and today in a new series of broadcasts to be heard three times weekly over the Columbia network, beginning Monday, April 2. A forty-piece orchestra and a chorus of sixteen voices will accompany the vocalists.

Presented under the auspices of Liggett and Myers Tobacco company, in behalf of Chesterfield cigarettes, the programs will be broadcast from 9 to 9:30 p. m., eastern standard time, every Monday, Wednesday and Saturday.

The popular conception of a Phi Beta Kappa man as a bookworm with no athletic or social attainments has been disproved at Amherst College this winter, where twelve of the nineteen men elected to Phi Beta Kappa possessed unusually fine reputations in extra-curricular activities, mostly in sports.

Nuts to You

By HOWARD WILCOX

This guy, Alden G. Alley, who spoke last Friday on "Fascism and Americanism," was well named. He went right down the old Alley and took a look at Italy's and Germany's back yards.

He could tell by the aroma what Mussolini and Hitler were cooking up in the kitchen.

We've been used to anking down the avenue and eyeing the mansions of our foreign relations from the front view. Last Friday we got the Alley view.

UNCLE JEREMY'S DIARY

Written for His Children in 1749
And Kept as a Precious Family
Secret for 185 Annus

Mar. 30—Spring is here! Up at daybreak, to go for a walk, thinking it should gyve me an idea. Verily it doth gyve me an idea—that of remaying in bed hereafter. In the course of my walk do I encounter Cousin Jabez, who saith: "Cousin Jeremy, thou lookst tyred."

"Thou, too," is my readie response. There are manie feathered creatures in the trees, the count of whych I begyn, but do not fynish. I am too tyred. Thence to home, to be layte for breakfast, and to incur the anner of my goode Wyfe Sarah, who sayth: "I am tyred of thys." I barter no wourds wyth her. I am too tyred.

All Questions Answered

- Q. When I read the title on Professor Blank's door last week it said: "Head of the Department." Today it says: "Acting Head of the Department." Why the change?
- A. He got married yesterday.
- Q. Who is this guy Blank, anyway?
- A. Dr. Blinket E. Blank, head of the department of blown fuses in the electrical college.

He has more degrees than a thermometer in a bowl of chile.

His complete title makes better alphabet soup than the government's.

He was a child prodigy. When the other kids were learning their A-B-C's, he was getting his Ph.D's.

The professor has a mind of his own. Nobody else will take the blame for it.

He absorbs culture wherever he goes. When the official procession passed the Bowery, the professor turned to the mayor and said: "Toin on the raddio, keed!"

Says Professor Blank: "Einstein's theory is the funniest thing I ever read."

He has written sarcastic letters to every publishing house. They can't publish books fast enough to keep him busy.

You may have wondered why he's so fat. He began to put on weight last year when he read in his income tax return: "Fill out the Blank."

Begin Tennis Vie; 3 Vets

Fourteen Aspirants Battle for Four Team Places; April 2 Is Deadline.

A tournament to determine the Omaha University tennis team was started this week. The first round is to be played by Monday, April 2.

There will be three veterans, Bob Brown, Cliff Pfeiffer, and Joe Greenstone, and a reserve, Harry Bradley, from last year, fighting for places on the team.

The pairings are as follows: Joe Greenstone vs. Russell Owens; Duane Butler vs. Francis Nelson; Harry Bradley vs. Don Ragan; Joe Barker vs. Don McGowan; Stanley Putnam vs. Don Benjamin; Clifton Pfeiffer vs. Herbert Marks; and Bob Barbee vs. Elmer Osslan.

Bob Brown is in charge of the tourney.

Select Judges For Rushmore Contest

A judging committee for university entries in the Mount Rushmore inscription contest, sponsored locally by the Omaha Bee-News, was announced Thursday. Dr. V. Royce West, head of the English department, is chairman of the committee, which includes Mrs. James Bednar, university regent, and Drs. Edgar Holt, Claude Stimson, and Lyman Harris.

University entries must be submitted to this committee before noon Saturday, May 12. A certificate of merit will be awarded to the writer of the best inscription, and the inscription will then be entered in the regional contest. President W. E. Sealock is one of the judges in the regional contest.

President Roosevelt on March 15, accepted the chairmanship of the national committee which will determine the character of the inscription to be carved on the west wall of the Mount Rushmore national memorial in South Dakota. We quote the Omaha Bee-News as follows:

"In accepting Mr. Borglum's invitation, the President said:

"In writing the inscription for the Rushmore memorial, let us stick to the good simple Anglo-Saxon words. There should not be a single word of Latin derivation in the inscription. The simpler it is worded the better it will tell the story."

The nine epochs which must be dealt with by those who enter the Mount Rushmore inscription contest are:

1. The writing of the Declaration of Independence.
2. The drafting of the American Constitution.
3. The Louisiana Purchase.
4. The Ceding of the Floridas to the United States.
5. Rise of the Republic of Texas and its entry into the Union.
6. Mexican war and the acquisition of California.
7. Settlement of the Oregon Boundary dispute.
8. The Alaska purchase.
9. The building of the Panama Canal.

An adult is a man that has stopped growing at both ends but not in the middle.

After a careful survey, a group of eastern educators has discovered that school children prefer the movies to attending school.

Ten Sign for Golf; To Plan Tourney

Ten men have signed a golf team tryout list in the gymnasium. A tournament to pick the team and the champion will be arranged some time next week, as soon as negotiations for securing a course are completed, according to Howard Wilcox, student manager.

The men are Don McGowan, Bob Anthes, Stanley Putnam, Floyd Abbott, Izzy Humoin, Howard Fry, Howard Wilcox, Eldon Rollin, Carl Baade, and Francis Johnson.

No Objections To Uni PWA Plans

(Continued from page 1)

The four buildings that would be erected by the national government under the PWA are a liberal arts building, containing class rooms, auditorium, and library; a science building; a gymnasium; and a heating plant. Tennis courts and parking zones may be added to this arrangement.

No Increases in Fees

There will be no increase in student fee rates, according to the terms of the application which the regents filed with the Public Works administration board. Funds to pay the rent to the government will be raised by taxes.

Although taxes will be levied to cover these costs, the increase will hardly be noticeable, according to President W. E. Sealock. The annual additional levy on a \$5,000 property assessment will approximate 38 cents, says Dr. Sealock.

Employment for 150 Men

About 150 men would be employed in constructing the new buildings.

The complete plan, as drawn up by Frank Latenser, state architect for the PWA, calls for eleven buildings. The additions to the campus will be carried out as the enrollment increases.

The seven future buildings are a separate library, a women's building, a fine arts building, a second science hall, a stadium, and two others.

Latenser, in his section of the application, stated: "It is expected that popular demand will call for the completion of the amphitheatre (stadium) at an early date."

Started Last August

The plan of asking the PWA for funds was conceived by the regents of the University last August. After several weeks of discussion concerning the legality of the project, the regents revised the plan to propose that the federal government erect the buildings and lease them to the University.

An application was finally drawn up. It was approved at a meeting of the regents October 28 by the judiciary committee, and presented before the state public works advisory board at Fremont November 2. The state PWA approved the project November 18. Since that time it has been in Washington awaiting the final approval of the federal government.

Numerous Sites Proposed

The city council, community improvement clubs, and real estate companies have proposed several sites for the new campus. Among those considered were Miller Park, a tract near Thirtieth and Maple, another in Benson, Fort Omaha, and the Field Club. The Fort

Probe Minor Letter Plan

Coach Sed Hartman Will Ask Okeh of Faculty Board on Minor Sports Proposition.

A resolution to grant minor letters on jersey coats to members of tennis and golf teams will be presented before the faculty athletic board soon, according to Coach Sed Hartman.

What the qualifications for securing a letter will be has not yet been decided, Hartman said, but he is trying to make it as difficult as getting a letter in major sports.

"I have been trying to put this across for two years," he declared. "It may be that the time is ripe this season."

The main obstacle to the granting of letters to minor sports teams in the past was the nature of their schedules, according to Hartman. The golf team in particular played matches with other than college aggregations.

Omaha prospect was lost when Secretary of War Dern, during a stay in Omaha, decided that Fort Crook should be abandoned rather than Fort Omaha. The Municipal University plan was not presented him when he was here.

Will Cost \$900,000

The four buildings would cost about \$900,000. Thirty per cent of the building costs, about \$207,000, may be given outright by the government. The University will advance approximately \$100,000. The remainder will be paid in rent at the rate of \$32,000 annually for a 35-year period.

At the end of this time, by virtue of an option to buy held by the University, the ownership of the buildings would be transferred.

Jack Hunt ex '36, who won the Harry Jerome economic prize last year, is now in San Francisco visiting friends. He is planning to go to the far East to study conditions there.

Papa loved Mama,
Mama loved men,
Mama's in the graveyard,
Papa's in the pen.

Where the Campus Coffees and Cakes Between Classes
University Lunch
QUICK SERVICE

In making a survey of campuses throughout the land, we find near every campus at least one gathering place where the students congregate. At Nebraska there is the Moon, at Arizona there is the Varsity Inn, and at Municipal university there is the University Lunch or Hash House, if you must be collegiate.

Such gathering places will long be remembered by the students for many enjoyable hours spent in them. The Hash House as a meeting place might be termed as a University of Omaha tradition. The proprietor of the Hash House, like the proprietor of every such place, takes a genuine interest in the students and the activities of the school.

With this thought in mind, we wish to apologize for any misconception of our Hash House that might have been formed by an article appearing in a previous issue of The Gateway.

Gals to Play Baseball Some of These Days

Intramural baseball will begin the week after spring vacation, Miss Harriet Benson, assistant director of physical education for women, announced this week. Both sorority members and barbs should plan to enter a group, she said.

Minnette Myers, '36, is in charge of baseball activities.

Honorary Fraternities

The six fraternities are the Gamma Pi Sigma, chemistry; Sigma Pi Phi, education; Psi Kappa Gamma, psychology; Kappa Gamma chapter of Sigma Tau Delta, English; Alpha chapter of Alpha Kappa Delta, sociology; and Alpha Pi Epsilon, history.

One difference between a president and a King is that a King has no vice.

Sixty-eight different courses are scheduled for the summer school session this year.

Love may move mountains, but you can do a better job with a steam shovel.

Only three students have surnames that begin with "Y".

3 Pongers Go To Round 4

Fetterman, Scanlan, and Boucher Semi-Finalists in W. A. A. Ping Pong Meet.

First and second round matches in the women's ping pong tournament were played this week.

In the third round Ethel Jane Scanlan defeated Helen Johnson, 16-21, 21-15, 21-17; Charlotte Fetterman defeated Florence Schnackel, 21-17, 21-9; Virginia Boucher defeated Betty Miller, 19-21, 21-10, 22-20.

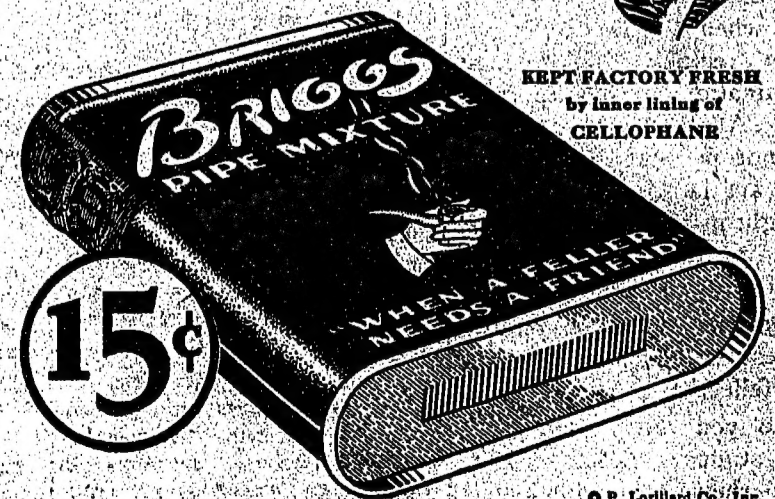

Results of second-round play: Steincamp beat Harrington, 21-4, 21-5; H. Johnson beat Scanlan, 21-8, 21-7; K. Johnson beat Larson, 21-18, 16-21, 21-5; C. Fetterman beat F. Schnackel, 21-13, 21-16; A. Kristensen beat Geisler, 21-16, 21-10; Brown beat V. Perkins, 21-19, 21-16; B. Miller beat V. Boucher, 21-6, 21-7.

Dr. Homer W. Anderson, Omaha school superintendent, will give special lectures at the university this summer.

"WHEN A FELLER NEEDS A FRIEND"

Cramming is a pleasure—if it's cramming mellow old BRIGGS into your pipe! BRIGGS is aged in the wood for years until it's biteless. No wonder it became a nation-wide favorite before it had a line of advertising! Won't you let BRIGGS speak for itself, in your own pipe?

Exams Corrected By FERA Pupils

Two FERA students are doing research work under the supervision of V. Royce West. They are Doris Coonley and Arthur King.

"These students are going through the Humanities examinations for the first semester, and making note of misspelled words and awkward constructions. Each student's work is carefully analyzed and criticized," Professor West explained.

"This material will be available to each individual student later in the semester during his conference meeting. The object of bringing this work back to the attention of the students is to explain their weaknesses and help them correct their errors in both spelling and composition," Mr. West said.

RADIUM SPECIALIST IN ILLUSTRATED TALK

(Continued from Page 1)
ical Aspects of Radium."

Dr. Quigley outlined the history of radium experiments, particularly those of Becquerel, Pierre Curie, and Mme. Curie.

"Uranium undergoes a spontaneous radiation, always throwing off helium until finally after eight billion years the final product, radium, is obtained," he said in explaining the origin of radium.

Sigma Tau Delta Elects 16 Members

Sixteen students were elected members of the university chapter of Sigma Tau Delta, national honorary English fraternity, at a meeting in the women's faculty building Wednesday evening.

Those elected are Robert Anthes, Marie Baroch, Nana Davis, Howard Fischer, Elizabeth Fore, Lucille Griffiths, Harriet Hicks, Helen Hill, Arthur King, Vera Kriss, Avis Kristenson, Janet Marks, Jane Masters, Mary Charlotte McGonigle, Erval McIlvaine, and Manville Woodyard.

A program preceded the election. Evelyn Kase, graduate student at the university, talked on the "Life and Work of William Dean Howells." Mrs. Laura Johnson, English instructor, talked on "Tragic Plots in Drama."

Frank Underwood, 35, sang a group of solos, and Catherine Pape, 34, played several piano selections. Refreshments were served following the election. Alma Pedersen and Irene Pierce were hostesses.

Scattered Bits O' News

Dr. T. Earl Sullenger will, for the eighth time, open the Marriage class at the Y. M. C. A. Monday evening, April 2. His first lecture is "Sociological Aspects of the Family." The class is sponsored by the Y. M. C. A. and Y. W. C. A. Prominent doctors and others will lecture to the class.

Dr. T. Earl Sullenger spoke to the older boys' group at the Y. M. C. A. Wednesday evening, March 28, on the "Social Implication of the Government's New Deal."

Mrs. Mildred Gearhart, English instructor, reviewed "Within This Present," by Margaret Ayer Barnes, before the North Side Junior Woman's club Tuesday evening, March 27, at the Miller Park pavilion.

Mrs. Laura M. Johnson, English instructor, recently won first prize for naming some new rolls produced by the Omar Baking company. Mrs. Johnson named the rolls "Golden Circles."

Marshall Dunn, former student at the Municipal university is now an FERA student at Northwestern.

— what it means

the cigarette that's Milder
the cigarette that TASTES BETTER

— to keep on hand
350,000 bales of
Turkish tobacco
to add something to the taste

So important is Turkish tobacco in the Chesterfield blend that we maintain a modern up-to-date tobacco factory in the far-off city of Smyrna.

Turkish tobacco adds something to the taste and aroma of a cigarette that no other tobacco can give.

It means something that Chesterfield always has in storage upwards of 350,000

bales of this aromatic Turkish leaf.

This Turkish tobacco is blended and cross-blended with ripe mild home-grown tobaccos to give Chesterfields a taste and aroma that is not like other cigarettes.

Everything that money can buy is used to make Chesterfield the cigarette that's milder, the cigarette that tastes better.
